How many students are projected to enroll in my school in fiscal year 2014? What is the difference in students between my school's fiscal year 2014 projected student enrollment and the current fiscal year 2013's projected student enrollment?

How much is my school projected to spend per student in fiscal year 2014?

*What is the difference between my school's actual budget and the initial budget allocation?

Whether it's FY13 or FY14, there is an important difference between your school's actual budget and your initial budget allocation. The actual budget is based on actual salaries, whereas the initial budget allocation is based on the average salary of each position.

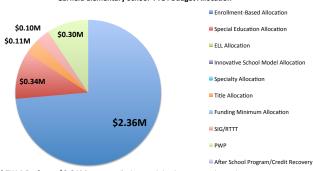

DCPS uses average position salary as its basic building block for school budgets because it allows principals and school communities to make decisions based purely on the cost of a certain position as opposed to the cost of a certain person.
